

YFORGE GAMING

SELECTED WORK / PROFESSIONAL PARTNERSHIPS

Rooms worth *staying in.*

Custom rooms, gaming spaces and considered interiors for homes and vacation properties.

Led by Pedro.
Built around people.

I’m Pedro Silva, founder of YForge Gaming. I create rooms that feel personal - from a quiet guest bedroom to an arcade that brings everyone together.

I lead a personally trained team ready to take on projects across Massachusetts. We visit and assess each property in person before final approval.

You work with me to set the budget, priorities and scope before we move into installation.

WHAT WE BRING

Bedrooms, living rooms, baths & kitchens

Gaming, arcade & cinema spaces

Personal site review & project coordination

Based in Framingham. Available for projects across Massachusetts, with travel and scheduling agreed in advance.

More reasons *to stay in.*

HOME CINEMA / COMPLETED ROOM

ARCADE / VIDEO STILL

Man caves. Arcade garages. Family game rooms.

Give the property another place to gather. We plan the layout, finishes, light and equipment around the room and the people using it.

Garage adaptations are subject to site review, required approvals and an agreed scope. Equipment is included only when itemized.

Make room for *imagination.*

A FOREST RETREAT

ICE-CASTLE & SURF-INSPIRED BEDROOMS

A room can be part of the experience, not just somewhere to sleep. Murals, coordinated colors, lighting and custom details carry the idea through the whole space.

Explore the full room portfolio

Not every room *needs to shout.*

The finish makes the difference.

Framed headboards, wallcoverings, soft curtain lighting and coordinated finishes give a guest room a calmer character.

We can start with one feature or bring several rooms into a consistent visual direction.

BEDROOM & WALLCOVERING DETAILS / SEPARATE SPACES

A clear plan.
Care in the details.

01 / BRIEF Your room choices, estimated budget and timing.

02 / SITE VISIT Pedro and his trained team assess the property in person.

03 / APPROVAL Room-by-room scope, pricing and schedule agreed before work.

04 / BUILD & CHECK Coordinated installation, walkthrough and finish checks.

WALLCOVERING INSTALLATION

A FINISHED BEDROOM / SEPARATE PROJECT

Electrical, structural and other specialist work is assigned to appropriately qualified professionals. Responsibilities, approvals and exclusions are confirmed before work begins.

One property.
A clear starting point.

Let’s begin with a property that has an opportunity: an underused garage, a plain guest room or a gathering space that deserves more attention.

FOR PROPERTY MANAGERS

Make the stay more memorable.

Give your listing something distinctive to show and guests something to enjoy together. We discuss cleaning, durability, access and the booking calendar as part of the scope.

FOR ARCHITECTS & DESIGNERS

Bring the details into the room.

Bring your design intent and specifications. We define decorative finishes, installation responsibilities and project coordination alongside your wider team.

Professional design / $500

Credited toward YForge installation of the same project.
Design scope and deliverables are agreed before work begins.

LET’S REVIEW ONE PROPERTY TOGETHER

Choose your rooms and share your budget. Pricing is built room by room, then personally assessed on site by Pedro and his team before final approval.

Better guest appeal is a design objective, not an income guarantee. Bookings and revenue depend on the property, location, pricing, season and management.

YFORGE GAMING

MASSACHUSETTS / LET’S TALK

Your next property.

Our next conversation.

I have a team ready to bring these spaces to life.
Let’s find the right project to start with.

ACCEPTING PROJECTS ACROSS MASSACHUSETTS

Greater Boston & MetroWest

Cape Cod, Plymouth & the South Coast

Cape Ann & the North Shore

The Berkshires & Western Massachusetts

Martha’s Vineyard & Nantucket

Travel, island access and installation dates are coordinated with the property team before scheduling.
